Chicago, Aug. 3 .- Judge Landis in the United States district court to day imposed a fine upon the Standard Oil company of Indiana of \$29,240,000, the maximum amount upon each one of the 1,462 counts of the indictment on which that company was recently convicted of rebating.

The judge also recommended that a call be issued for a special grand jury which is to consider the other party to the rebating operations of which the Standard Oil company was found guilty, and it is, therefore, probable that within a short time proceedings will begin against the Chicago & Alton railroad company for the alleged commission of similar of-

The Court Room Was Crowded. The reading of the opinion by Judge Landis aroused almost as much interest as the presence of John D. Rockefeller and other officials of the Standard Oil company upon the witness stand. The court room was crowded to its utmost capacity and the United States deputy marshals were finally compelled to refuse admittance to all late comers

The government was represented in the court room by United States District Attorney Sims and by Assistant District Attorney Wilkerson. The only attorneys of the Standard the last week, through the offices of Oil company present in the court Roger O'Mara, who has just returned room were Attorneys Eddy and Martin, neither of whom hore a prominent part in the actual trial of the

Judge Landis began reading his decision at 10 o'clock and consumed approximately an hour before he announced the penalty.

The Corporation Will Appeal. The government does not believe the Standard Oil company will appeal in the Holman house, according to directly to the United States supreme court. It probably will go to the United States circuit court of appeals. There is a possibility that the court of appeals will reverse and remand the case for new trial. ### AND THE HAT IS NOT TO BE PASSED

Secretary Mellor Will Serve Three Months Without Pay-New Members for Business Men's Association.

It has been the custom for a number of years for some one to call on the merchants of Sedana for funds for the purpose of entertaining visitors during state fair week.

Last year a considerable sum of money was raised for this purpose, and after all expenses were paid there remained a balance in the treasury, which will be available to apply IT WAS LEFT AT A HOME IN DEon this year's entertainment.

The Business Men's association, at a meeting held July 1st, decided that inasmuch as the merchants have been called upon for subscriptions so often they did not think they should be asked to contribute a large sum to defray the expenses this fall, and they therefore adopted the following plan, which they trust will meet with the approval of the merchants and business men.

While discussing a plan for accumulating money for the entertainment of state fair visitors, Secretary Mellor proposed serving as secretary without salary, beginning July 1st, until state fair.

This will greatly reduce the expense of maintaining the association, and will enable it to accumulate money for entertainment purposes, which

It was further agreed that a committee should solicit the business men who are not now members and ask them to become members of the association for a period of six months, beginning July 1st, and pay \$! per montl!.

If a sufficient number of names can be secured to the membership list and with the reduced running expenses of the association, they will be able to maintain a bureau of information to care for the visitors during the fair without further soliciting

### WHY HE IS A DEMOCRAT.

John H. Bankhead, the new senator from Alabama, says he is a democrat, and gives his reasons for it, and very good reasons they are. In his speech before the legislature he said he was a democrat because he believed in the greatest personal liberty consistent with the rights and privileges of others; because he believed in home rule and the right of the state to regulate its own affairs without interference or dictation from the national government; because he believed in equal and exact justice to ite

"COME SEVEN, ELEVEN."

Budding Business Man "Makes Good" to His Admiring Parent.

When Sam came back from college his father didn't think he would make good as a business man because he hadn't had practical experience, says the St. Louis Post-Dispatch. Sam's mother pleaded so hard his father decided to let him do some of the buy. ing for the house, but he shook his head and said:

"The boy will lose money for me,

A few days later a salesman for a wholesale house came in and Sam took him to the buying room. Sam's mother was so anxious to learn that her faith in the boy was justified she stood near the door and listened. After remaining there for a while she ran into the store and said to her husband:

"Jacob, the boy's all right. He is in there insisting on a bigger discount than we ever got. I heard him. He's hollerin' 'seven, eleven.' You know, Jacob, we never got better than six he predicted poverty and distress. per cent. for ten days. He's got the the prosperity would have been more making of the business man."

Other democratic leaders do not view the nomi nation of a southern man with the optimistic complacency of Senator Bacon; they do not believe that the democratic ational convention will nominate a man from the southern states unless he is acceptable to the delegates from the close and doubtful porthern states. ved 9

It is pointed out that during the last ten years most ofgthe eastern democratic criticisms of Mr. Bryan has Leen based upon his extreme views on financial, economic and political questions. They have failed (and in many instances, it would seem, in tentionally) to recognize the distinct tion between Mr. Bryan's academical views and those which he estimates as belonging in the realm of practical politics.

Hand embroidery is lavished without stint upon sheer materials of all kinds. It would seem as if the last word of extravagance had been said when these blouses, gowns and frocks of all sorts are finished, but still the elaboration goes on, yet all are kept within the bounds of good taste. Harmony is found in the most extravagant combination of laces and embroideries, whether hand made or of the finest machine work. Some of the imported embroidered batistes are so faultlessly made that it is almost impossible to tell the difference between them and the handmade ones.

The separate berthas of lace or embroidery or a combination of both have become great favorites. A pretty full mull flounce slipped on over a plain shirt waist will transform the latter into a dressy and elaborate waist. The same idea may be carried out with a fitted separate yoke to be worn with a low or high necked dress for a change. Half sleeves may accompany it, but again some girls like the pointed or rounded cuffs or frills to match, which they adjust with gold safety pins to the sleeves. Then, there are the wide front pieces to add to a plain blouse, with little frills on each side or tiny pleatings, edged with a very narrow lace, and there should be cuffs to match. These are such simple little affairs, depending will find herself well repaid for her fetching changes she can thus achieve. A change of this sort gives the effect of an altogether different

Last year the princess was most popular in the lace embroidery modes and there seems to be no dimunition in their vogue this season. Dainty Swisses, plain and figured batistes, mulls, organdies, thin silks and other materials are extensively used for these gowns.

Few styles are more becoming than the loose little Etons. Most of these are made with the new capsleeve now in such high favor. Numbers of these are made of lace or embroidery, and in the case of the former material, the lace is often laid over an under body of the same material as the skirt, providing the material is light, such as silk. Embroidered Etons will be extensively worn with the white linen suits, when the skirt will be plain, except for some pleating, a plain lingerie waist beneath the Eton, which, however, will receive the elaboration that the rest of the costume has been denied.

# REFUSE TO WALK

MISSOURI PACIFIC MAY HAVE TROUBLE DOWN AT WICH-ITA, KANSAS.

### ROUND HOUSE IS TOO FAR AWAY

Engineers and Firemen Decline to Wall a Distance of Four Mile; to Take Out Engines Each Day.

The moving of the Missouri Pacific round house into the new buildings north of the city has precipitated a trouble that may be more serious than was figured on at the beginning, says the Wichita Eagle. The new round house is almost four miles from the Missouri Pacific passenger station on Douglass avenue, and is so far away tht the men can not walk to their work, and the railway has not as yet reached any agreement with the employes as to the manner in which they shall get to their St. Louis, Mr. Elmer W. Ramsey and

ments have not yet been made, the affair is in a very unsettled condition having some serious difficulty in reaching an agreement that will be the next issue. entirely satisfactory to both sides.

tled.

A meeting of the various railway organizations was held last night for the purpose of making some plans as to the course of action that should be followed by the men in order to railway to make, but from what can be learned of the meeting nothing definite was done, and it is steed a matter of conjecture as to the nnat outcome of the affair.

There was much discussion at this meeting of the railway men, and although there seemed to be a strong feeling among all of them, that they would not walk the distance to the round house, yet there seemed to be no plan that suited all of them.

Many of the men have declared they will not walk the distance, and they also have declared they will not work if it is required of them to walk so far. One engineer was heard to re-

"I would not walk away out to that new round house to take charge of my engine if I knew there were 1,000 cars of fruit spoiling in the yards because I would not take my engine."

Others of the trainmen have expressed themselves in a similar manner, and a strike may soon result if the railroad company refuses to accede to the demands of the workmen.

Chief Clerk Garrity, of the superintendent's office, thinks there will be no serious trouble with the men, but that there will soon be an agreement made that will be satisfactory to both parties concerned. In discussing the affair, he said:

"When the way of getting out to the new round house was first talked of the men who represented the different organizations of railroad men came to Superintendent Webb and offered to give up all their claims to terminal overcharges if the company would agree to bring the engines down to the place where the old round house has been.

This was agreed to by Mr. Webb but it seems the men were slow in taking up the agreement, and as the case now is they are left temporarily with no way of getting to their work. I think an understanding will soon be reached that will be satisfactory to both the company and the men.'

The terminal overcharges that the men agreed to forfeit in order to have their engines brought to the First street round house is the money paid them for waiting in the yards for their trains to pull out. This amounts to considerable and it was thought! for a time this agreement, would be satisfactory. The reason the railway men did not stay with the proposition

FRIEND IN NEED REWARDED.

Picnic Party, Helped Out of Dilemma, Ungrateful to No Purpose. A big picnic wagon, loaded with

baskets of eatables and several kegs of beer, was moving south on Troost avenue just after midnight Sunday morning, says the Kansas City Times. It was raining in torrents. They were beyond the city limits when the sleepy horses drew the wagon to the toppled over. The hampers, baskets, kegs, and merry party were piled into a heap without injury to anything except a few pies and sandwiches. The horses stopped and the merry party 000 which represents silver and alheld a council to determine how to most every known article under the right the overturned vehicle.

Just then the good samaritan ap peared. He lived across the street The picnickers appealed to him for help. He harnessed his team, procured a long chain and after a long pull in the mud and rain succeeded in drawing the wagon from the ditch and righting it. He helped the once merry party load their impedimenta and then suggested compensation.

Man and His Ways.

Ask any hostess who is sensibleminded, and who wishes to entertain in a rational manner, what she thinks of the manners of the men who come to her dinner-dance parties, says a writer in the London World. She will ual, that they will often throw her over at the last moment if they get what they fancy is a better offer, that they think nothing of keeping a whole dinner party waiting for half an hour after the appointed time, that their demeanor and bearing seem to imply that they have done a great favor in coming at all, and that in many cases when they get to the dance, they igwhich they have dined altogether, un-

Chairman Knott suggests that this commission be composed of the gov ernor, Assistant Attorney Genera Kennish and some farmer. Gov. Foll is not at the capital, and no expres sion can be secured from him.

Strike Ordered Saturday.

An Associated Press telegram to the Democrat-Sentinel, Saturday, from Denver, Col., reads:

"Grand Master Morrisey, of the Brotherhood of Railway Trainmen, today called out 500 union brakemer and conductors on the Colorado and Southern, because of the refusal of the road to grant the switchmen an increase in wages.

The railroad appealed to the interstate commerce commission and the commissioner of labor to prevent the men from going out."

Big Month's Work at Shops.

In spite of the frequent labor troubles at the Missouri Pacific shops here during the past month, Master Mechanic McGrw Saturday stated that the men did the largest amount of work during the month that has been done during any month since the erectio of the shops.

Twenty-seven locomotives were either repaired or rebuilt at the shops during the month.

House, and What the Female Bathers Did to Him Was a Plenty.

New York, Aug. 3.-Mrs. Harvey Bowen saw a well dressed man, apparently about 25 years old, crawling about beneath the bathhouse, at the foot of Twentieth street, Coney Island, Friday. Leaving the bath house without alarming him, she armed herself with a pail of scalding bot water. In a few minutes she heard the man crawling about under the compartment she was in. Without warning she poured the steaming hot water over the head, face and shoul-

house was a "Peeping Tom." While the women were trying to lo cate him the man wriggled out from beneath the bath house and ran across the beach in an effort to escape. A score of women bathers, unhampered by long skirts, ran after him and easily captured him.

"Let's drown him," one excited woman screamed.

This seemed to be the wish of all the other women, and the man was dragged, velling and struggling, to the beach. He struck at the women who were holding him, but only angered them the more. He was quickly over-

powered and dragged into the water. Twenty or more women joined in ducking him. The man yelled for help, but each time he opened his mouth he was shoved under water again. Exhausted by his own struggles and the repeated duckings he had received, the man quit fighting and was shoved, pushed and beaten

Emphatic but Amusing Reply for Uncle Sam's Blue Book.

Washington, Aug. 3 .- Some amusing replies are received by the government officials who are collecting data for the new official register, familiarly known as the "Blue Book."

One of the queries propounde: to officeholders is, "What are your marital relations?" The answer should be either "married," "single" or

An officer who is charged with the task of sending these questions received two notable replies recently. The first reply was:

"My marital relations are very unsatisfactory."

Another toiler in one of the departments of Uncle Sam filled out his blank as follows:

"Question: What are your marital "Answer: They are hell."

Boise, Idaho, Aug. 3.-William D Haywood, secretary-treasurer of the Western Federation of Miners, accompanied by his family, John H. Charles H. Moyer, president of the federation, who has been released on \$25,000 bail, was also expected to leave Friday, but postponed his departure until tonight. The fact that Haywood and Moyer

did not leave together has renewed rumors circulated some time ago of serious differences existing between them. Both men denied these stories and declared they were circulated to create dissension and to divide the ranks of the miners' organization.

It is known, however, that Moyer has not wholly approved of the plan for a celebration in Denver on Sunday, and will have no part in it. He believes it would be far better at bone, who remains here in jail, has had his trial.

# UNDERMINES THE HEALTH-. LAYS THE FOUNDATION FOR DISEASE

Malaria comes from the absorption into the blood of germs and microbes which destroy the rich, nutritive qualities of the circulation and reduce it to a weak, watery, disease-spreading stream. The healthy color of the skin is given to it by the millions of little red corpuscles which are in the blood. These are the carriers of nourishment and health to all parts of the body; in other words the very life and vitalizing essence of the circulation. The destruction of these corpuscles by the malarial poison takes the color from the cheek, and in the first stages of Malaria we have pale, sallow faces, poor appetite, a bilious condition is set up, and we feel "out of sorts" generally. But Malaria means more than this; it is a systemic blood poison, which undermines the health and gives rise to innumerable and sometimes serious disorders and diseases if the poison is allowed to remain in the blood. As the blood becomes more and more polluted with the malarial poison, the digestion becomes deranged, chills and fever are frequent, skin diseases, boils and carbuncles, and sores and ulcers break out on the flesh, and after awhile the foundation is laid for other diseases which either prove fatal or permanently undermine and wreck the health. Malaria can only be worked out of the system through the blood. Purging the liver and bowels with strong, nauseating cathartics can never remove the trouble because they do not reach the blood where the germs are constantly multiplying. The only hope for a cure is a remedy that can destroy the germs and microbes, and neutralize the bad effects of the poison, and S. S. S. is the medicine to accomplish this, because it is a perfect blood purifier and a general systemic

remedy of unequalled value. S. S. S. searches out and removes every trace of the malarial poison and puts the blood in such rich, healthy condition that sallow, anaemic complexions take on the ruddy glow of health, the liver and digestion are righted, the appetite improved, the system vitalized

and strengthened, and every symptom of Malaria passes away. Malarial persons will find S. S. S. not only a prompt remedy but a gentle, pleasant acting one, as well as a certain cure for this disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its fine tonic effects. Persons living in a malarial section should, at this season, fortify their systems against this insidious disease by purifying their blood with a course of S. S. S. ### A Notre Dame Lady's Appeal.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers free. You cure yourself at home as thousands of others will testify-no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, box 412, Notre Dame, Ind. .

Kansas City, Mo., Aug. 3.-Captain William E. Weber, for several years in charge at police headquarters, was Friday afternoon dropped from the police force by the reorganized board. His commission expired on May 4 and the board refused to recommission him. On the vote to adopt the resolution which dropped him, Mayor Beardsley voted no. The resolution introduced by Commissioner Gallagher was concurred in by Commissioner

Captain Weber was tried before the police board recently for allowing gambling in a building at Eighteenth street and Park avenue, which he owned and where he lived in the flat on the second floor. The findings of Mayor Beardsley and of F. F. Rozzelle, a member of the board, exonereted him of any blame, holding that he had no knowledge of the gambling

MAYOR OF CARYLYE, ILL., IS AC-CUSED OF GRAVE OMIS-SION OF DUTY.

### HOUSEWIFE ASKS \$6,000 DAMAGE

Warned Saloon Men Not to Sell Liquor to Her Husband, On the Ground That He Was Habitual Drunkard.

Carylye, Ill., Aug. 3.-Filing of information in the county court by the state attorney, charging Major G. H. Berger with ommission of duty in allowing the saloons of Carylye to keep open on Sunday, and suit for \$6,000 damages against the eight saloons of the town by Mrs. John C. Gross, wife of a former business man, was the climax Friday of a campaign waged for several months by women to put on the lid.

The Woman's Christian Temperance Union has been active since G. H. Berger, a druggist, was elected mayor in April. At the first meeting of the new council the women of Carylye requested the mayor and the council to enforce the Sunday closing law. This request was referred by the council to the mayor, who sub mitted it to the judiciary committee, "to report if it so desired." At the last meeting of the council, Alderman Patterson asked the mayor what action should be taken, and the executive replied: "I have nothing to re-

F. M. Guin, of Vandalia, counsel for the Anti-Saloon League, arrived yesterday morning, and, after his conterence with State Attorney Ford, the affection, they entered into a spicide state attorney filed information in the county court, charging the mayo with "palpable omission of duty in allowing the saloons to be kept open on Sunday." The case is set for hearing August 12. The mayor contends that he has no knowledge of the violation of the Sunday law and is not obliged to act.

> John C. Gross, a former dry goods nerchant, was arrested and fined \$55 wo weeks ago following a disturb ance at his home and placed under a peace bond. Mrs. Gross at the time fled three complaints against saloonkeepers, charging them with selling liquor to a habitual drunkard, and her brother sued two saloonkeepers or charges of conducting gambling

Friday afternoon, Mrs. Gross. through her attorneys, F. M. Guinn and D. Kingsbury, filed in the circuit court a suit for \$6,000 damages against the eight saloonkeepers of Carylye, as follows: Gerhard Wichtmann, G. N. Welsh, David H. Eaton, A. B. Sengraves, Donnewald & Sautmann, Herman & George Roberts, Roberts & Schneider and C. Muerling.

The Highland, Reisch and Obert brewing companies and Henry Bender, owners of some of the saloon buildings, also are named as defenddered the saloonkeepers not to sell

At the Shanghai conference, April 25-May 7, celebrating the anniversary of the first hundred years of Protest ant missionary effort in China, the following noteworthy comparisons were brought forward:

In 1807, not one Chinese protestant christian. Now more than 160,000.

ant missionary. Now more than 3,800 oreign missionaries.

In 1807 no native helpers. New nearly 10,000.

In 1807, no part of the Bible printed in Chinese. Now more than 3,000,-000 copies of the Bible or Testaments sold in China last year.

In 1807, no christian books or tracts in Chinese. In the last thirty years from Hankow alone more than 26,-000,000 books and tracts have been issued and circulated.

In 1807, China was closed against the Gospel. In 1907, the whole of China is thrown wide open for missionaries to enter, and her people eager for new light, new knowledge, new life.

There are more than 70,000 confessed Christians in Japan. One of the most famous Japanese pastors says: "There are in Japan more than 1.000,-000 people who have not confessed Christianity, but who are ordering their lives by the teachings of the Bible and who now only require a public confession of their faith."

Four Railways Have Begun the Most Exciting Railroad Race in the History of Canada, So It Is Claimed.

Special to the Democrat-Sentinel.

Calgary, Alberta, Aug. 3.-The Canadian Pacific railway has announced that it will meet the proposed invasion of its territory by the Grand Trunk and the Canadian Northern by running an extension of its own north from Lethbridge, into the heart of the rich wheat country that the other roads are preparing to cress. This means that four railroads have begun the most exciting railroad building race in the history of Canada, with the territory east of this city as the goal.

The increasing importance of the Southern Alberta winter wheat crop, which is so largely grown by American farmers who have emigrated from the states, is responsible for this sudden activity, and the story of the chain of events leading up to the Canadian Pacific's announcement forms a vivid chapter in the romance of railroal mapmaking.

The Canadian Pacific railway was the first in the field and for years handled the entire grain crop of Southern Alberta, then worth less than a million dollars. When the Grand Trunk decided to build west to the coast its officers saw that it would have to have some of this traffic, so the Grand Trunk announced that it would build a branch line from the north Saskatchewan river to Calgary. This was followed by rumors that the Canadian Northern intended running an extension down to Calgary, somewhat west of the Grand Trunk's proposed route. Then Jim Hill set every one by the ears by the announcement that he was going to join the contest by bringing the rails of the Great Northern from Montana right up into the heart of the disputed territory.

The total crop of Western Canada was then worth \$100,000,000, and Sir Thos. Shaughnessy, president of the Canadian Pacific, signified his purpose of holding control of its transportation by issuing his famous pronunciamento that he would build two miles of railroad in the United States for every mile Hill built in Canada. Since then the crop has increased still more in size and value, in the face of a shortage south of the international line, and the Canadian Facific has at last taken active steps to meet the competition of its rivals by building ahead of them and directly across their proposed routes.

The exact course of the extension from Lethbridge has not yet been an nounced, but it will strike north through the fertile lands east of this city, and will probably cross the main line of the railroad at a point between Cheadle and Strathmore. This will open up a new section of the com-
